

## **EHS Manager (m/f/d) Environmental Protection, Health Management and Safety**

KD Pharma Group is a medium-sized, internationally operating company headquartered in Bexbach, Saarland. We specialize in the production of custom-made products that meet the diverse needs of the global market. KD Pharma Group is one of the few companies worldwide offering Omega-3 concentrates with a purity of up to 99.5%. This is achieved through a dedicated focus on research and technology development for Omega-3 fatty acids. This enables KD Pharma Group to provide tailored solutions, allowing each customer to differentiate themselves from competitors in the global marketplace.

We are looking for an EHS Manager (m/f/d) Environmental Protection, Health Management and Safety to join our team!

### **Your tasks:**

- Assumption of representative functions from the EEHS area with implementation of the legally prescribed tasks (consulting, monitoring, documentation)
- Advising the management and production areas on occupational health and safety, health protection, environmental protection and energy management
- Organizing the preparation of annual reports to the management and authorities
- Supervision of management systems for occupational health and safety, environmental protection and energy management in accordance with ISO 14001, ISO 45001 and ISO 50001 (documentation, key figures, legal register, management review and audits)
- Support with plant monitoring, including the monitoring of conditions and legal requirements
- Support and coordination in the preparation of application documents and other documentation for funding, subsidies and legal requirements (e.g. Bafa, SPK, EefG, BImSchG)
- Coordination and continuous improvement of the operational EEHS system (Environment, Energy, Health and Safety) of K.D. Pharma
- Cooperation with external consultants and dangerous goods officers to ensure the smooth shipment of dangerous goods
- Perform risk assessments and corresponding risk mitigation measures, including the preparation of operating instructions for hazardous materials and safety equipment
- Ensure compliance with health and safety and environmental legislation and existing permits while maintaining budget responsibility for this area
- Actively participate in the development, implementation and maintenance of the strategic and tactical EHS plan at the site - in close coordination with the Plant Manager
- Develop and deliver training on occupational health, safety and environmental protection and be responsible for internal and supporting external EHS audits

**Your qualifications:**

- Completed studies in engineering (e.g. safety engineer, mechanical engineer or similar) or completed relevant training with several years of professional experience and specialist further training
- Ideally several years of relevant professional experience in an industrial company
- Completed further training as a safety specialist in accordance with DGUV 2 is desirable
- Training as a fire safety officer is an advantage
- You are characterized by flexibility and commitment
- You enjoy working in a team and have excellent communication skills
- You are business fluent in German and fluent in English (written and spoken)

**Your Benefits:**

A varied, versatile and challenging position with a high level of personal responsibility. You will be trained “on the job” in a committed and competent team.

- Individual career and development opportunities in an internationally operating company
- Fair remuneration with additional benefits such as Christmas and holiday bonuses
- Company pension scheme
- Free water and coffee
- Company products at employee prices
- Company events

**Workplace:**

 Bexbach

**Start Date:**

 As soon as possible
