

Project / Mechanical Engineer (m/w/d)

KD Pharma Group is a medium-sized, internationally operating company headquartered in Bexbach, Saarland. We specialize in the production of custom-made products that meet the diverse needs of the global market. KD Pharma Group is one of the few companies worldwide offering Omega-3 concentrates with a purity of up to 99.5%. This is achieved through a dedicated focus on research and technology development for Omega-3 fatty acids. This enables KD Pharma Group to provide tailored solutions, allowing each customer to differentiate themselves from competitors in the global marketplace.

To strengthen our team, we are looking for a Project Engineer (m/w/d) with mechanical background to join our engineering team.

Your tasks:

- Responsible for implementation of process and machine solutions
- Project definition, project management and project execution either as team leader or team member
- You will lead problem solving teams to address complex issues using the best industry practices and most cost-effective solutions
- Ensuring compliance with the mandatory guidelines for mechanical devices
- Supervise and manage outside contractors as necessary to complete project work
- Implementation of small to medium size projects, involving equipment and process modifications to support introduction of new products and changes to existing products
- Responsible for completion of action items as assigned from safety audits, observations, or other investigations

Your qualifications:

- Completed studies in engineering (mechanical engineer or similar) or completed relevant training with several years of professional experience and specialist further training
- You have initial experience years of relevant professional experience in an industrial company with proven track record of project completions
- Your organisational, project management and time management skills are the key to your success
- You enjoy working with a team and have excellent communication skills
- You are business fluent in German and fluent in English (written and spoken)

Your Benefits:

A varied, versatile and challenging position with a high level of personal responsibility. You will be trained “on the job” in a committed and competent team.

- Individual career and development opportunities in an internationally operating company
- Fair remuneration with additional benefits such as Christmas and holiday bonuses
- Company pension scheme
- Free water and coffee
- Company products at employee prices
- Company events
